## WORK EXPERIENCE

### M9 LOGISTICS

09/2023 - 10/2023

#### FULLSTACK DEVELOPER

Participated in a real-world project developing a web application for managing a logistics system, using Angular for the Frontend and .NET Core for the Backend.

## EDUCATION

2021 - now

### HUTECH UNIVERSITY

- Information Technology

## PROJECTS

### Easy Order Management

08/2024 - PRESENT

#### FULLSTACK DEVELOPER

A web application that enables restaurant management for users, incorporating tableside ordering capabilities via QR codes.

#### Responsibilities:

- Initiating the base project with Clean Architecture.
- Using SignalR to implement real-time notifications for customer orders.
- Implementing cloud storage for images using Firebase.
- Developing functionality for customers to place orders by scanning QR codes.
- Deploying front-end using Vercel.

**Technologies:** .NET Core, Angular 16, Ant-Design, Bootstrap, Material-UI, SQL Server, Firebase, GitHub
